

## Progress and Consequence Article Reflection

What is the full/complete title of the article you read?

What were the main ideas of the article?

What were your overall thoughts, feelings, and reactions to the article? (Did you like it or not? Did it make you think or feel anything specifically? Why?)

How does the article address the idea of humankind's progress? (What human progress has ultimately led to some negative effects?)

List several negative consequences (as a result of that progress) that the article mentions.

List the solutions that the article explicitly offers or suggests as a way to minimize or undo the consequences.

Which pictures/images did you find especially strong or weak in the article? In other words, were the pictures powerful and meaningful in showing the article's content and ideas or were they simply pictures that kind of fit but didn't really add anything? Explain your answers.

What, if any, questions do you have regarding the article and/or the topic?
