

## “The Landlady”

### Character “Map”

Directions: Using any part of the story, identify three *personality* traits of the character of the landlady. For each trait, find and **write** two quotes from the story that give evidence of that trait. One quote will be Evidence A for that trait, the other will be Evidence B. Be sure to quote the story word for word **and cite** each quote appropriately (the author’s *last* name *and* the page number of where the quote is found go in parentheses after the quote). Your quotes can come from the dialogue or the narration in the story. Then briefly **explain** *how* each quote you've pulled (Evidence A or B) shows the trait you say it proves/shows.
