

## Decoding Vocabulary Via Word Parts

Directions: In the left column are words that are built using the word parts that you've studied this year. In the second column, "Meaning via Word Parts," define the word parts that make up the word. In the third column, write the real definition of the word to see how closely the word's meaning is tied to the word parts that make it up. On the line to the left of the word, put a check mark if the dictionary definition essentially matches the meaning via word parts; put an X if it does not.

<u>Word</u>	<u>Meaning via Word Parts</u>	<u>Real Definition</u>
